Learn to Solve Problems

Tennis is a sport that is
based on evaluating angles,
geometry and physics to get
the best result, which
translates into better problem-
solving off the court.

In the late 1990s, several experts
proposed that tennis, since it
requires alertness and tactical
thinking, may generate new
connections between nerves in the
brain and promote a lifetime of
continuing brain development.
This was supported in John Ratey's
book, "Spark." Ratey was quoted in
USA Today as saying, "A heart-
thumping game of tennis can
keep the brain in top shape."
