

USTA Georgia State Chmps App

(Turning on Event Messages & Using)

This App is available for iPhones, iPads & Android devices. In your Apps (Apple products) or Google store (Androids) search for USTA Georgia State Chmps. You will see the picture on the right, and it will say "Get" instead of "Open". Download it.

Once you have downloaded the app and you open it, you will be asked if you would like to receive information, such as.... Choose Allow and then the main screen will be similar to the picture to the right. Click on CHAMPIONSHIPS.

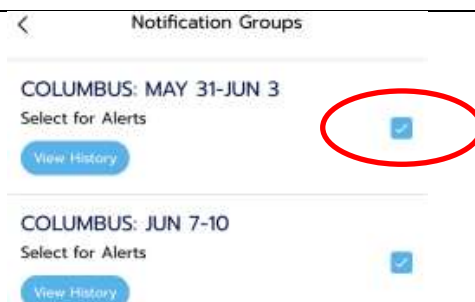

Choose your specific championship.

The following page will open. The first time you open this, you need to turn on the event messages for your specific championship so that you receive all of the messages we send. Choose "Tap Here to Accept Important Messages for this Event."

The Messages page will show a list of all our state championships in alphabetical order, not by date. For any championship you would like to receive messages, choose it and will automatically be saved.

These will be the options for your championship. You can see all of the notifications for this event under the EVENT MESSAGES.
